

Force Motors Signs MoU with Ministry of Road Transport & Highways to Support Commercial Vehicle Replacement Scheme in Delhi-NCR

New Delhi, 30th June 2026: Force Motors Limited, India's largest van maker and a leading automotive manufacturer, today signed a Memorandum of Understanding (MoU) with the Ministry of Road Transport & Highways (MoRTH), Government of India, to participate in the Commercial Vehicle Replacement Scheme for the Delhi-NCR region.

The scheme aims to accelerate the replacement of older BS-IV and earlier generation trucks and buses operating in the Delhi-NCR region with cleaner BS-VI compliant or electric vehicles, supporting the Government's efforts to reduce vehicular emissions across the National Capital Region.

As a participating OEM, Force Motors will support the implementation of the scheme through its authorised dealership network in Delhi-NCR and extend the prescribed OEM benefits to eligible customers in accordance with the scheme guidelines.

Commenting on the development, **Mr. Prasan Firodia, Managing Director, Force Motors Limited**, said, *"Force Motors is pleased to partner with the Government of India in this important initiative to modernise the commercial vehicle fleet in the Delhi-NCR region. The scheme aligns with our commitment to delivering cleaner, more efficient mobility solutions. We look forward to enabling fleet operators and customers to transition to the latest generation of commercial vehicles through this collaborative initiative."*

ABOUT FORCE MOTORS LIMITED: INDIA'S LARGEST VAN MAKER

Founded in 1958 by Shri N. K. Firodia, Force Motors Limited was established with a vision to provide affordable, reliable, and efficient transportation for the masses. Today, it stands as a fully integrated automobile company specializing in the engineering, development, and manufacture of vehicles, aggregates, and components.

The company operates five state-of-the-art manufacturing units across India, employs over 10,000 people, and is led by its Chairman, Dr. Abhay Firodia. Its advanced R&D center in

Pune, supported by a design team of over 1,000 experts, is regarded as one of the finest in the country.

Force Motors is a versatile automotive company with the capability to cater to diverse international markets by offering customized, country-specific solutions. Its formidable product range spans light commercial vehicles and multi-utility vehicles, and its export presence extends to over 25+ countries including Middle East and Gulf region, Asia, Latin America, and Africa.

Force Motors has built strong relationships with global automotive leaders by consistently delivering high-quality engines and components.

Mercedes-Benz and BMW assigned Force Motors the responsibility of producing and testing engines for all cars and SUVs manufactured in India. Every Mercedes-Benz car and SUV made in India is powered by an engine produced at Force Motors facility at Chakan in Pune.

Similarly, Force Motors' world-class factory in Chennai, built to BMW's exacting standards, powers every BMW car and SUV made in the country.

Force MTU Power Systems Pvt. Ltd. is a joint venture between Force Motors and Rolls-Royce Power Systems AG. The venture specializes in producing 10 and 12-cylinder Series 1600 engines, ranging from 545 hp to 1050 hp, at its manufacturing facility in Chakan, Pune. These engines are supplied globally for power generation and underfloor rail applications

PRODUCTS AND INNOVATION

Force Motors offers solutions for both passenger and goods transport, with its Traveller N and Trax ranges leading their respective segments. Building on the legacy of the Traveller, the **Traveller N** sets new benchmarks in efficiency, reliability, comfort and safety, while the rugged **Trax** caters to challenging terrains and demanding operating conditions.

Force Motors has introduced **Urbania**, a new ground-up modular monocoque passenger van platform, marking the beginning of a **Premium Shared Mobility** segment for domestic and export markets. After establishing a strong foothold in India, Urbania is now expanding into key markets across the globe.

The **Force Traveller Monobus** is an efficient mid-size bus designed for safe and reliable passenger travel. Its monocoque body enhances stability, comfort and fuel efficiency, making it a preferred choice for transportation.

The **Force Gurkha** in 3-door and 5-door variants is known for its rugged build and off-road capabilities. It is built to conquer the toughest terrains with ease. Designed for adventure, it delivers durability, power, and unmatched all-terrain performance.
