

The New **TRAVELLER N**

A New Era of Smart Mobility

Modern design that reflects smart mobility

Introducing the New **Traveller N** – leading a new era of smart mobility. Designed with purpose and evolved for today's dynamic mobility needs, it brings together enhanced styling that commands a stronger road presence, superior comfort for both passengers and drivers and thoughtfully integrated features that add ease and efficiency to every operation. Every element has been refined to deliver a smoother, more reliable and more modern ride experience – one that meets expectations but moves them forward with confidence and consistency.

New Front Fascia – Redesigned for a distinctive look, redefined for durability & sculpted for a stronger presence

New Advanced Lighting System – Signature DRLs and sharper illumination for enhanced visibility

New Fender & New Side Blinker Lighting – Designed for better signalling and clearer all round visibility

New Outside Rear View Mirrors – Ensures enhanced visibility and better control

New Tail Lamps – Sleek LED lamps for improved visibility and ensuring clear and glare controlled function

New Rear Bumper – Built for enhanced strength and protection

Designed for comfort, built for convenience

Comfort and convenience come together to define a new standard in mobility. Thoughtfully designed for both passengers and drivers, the New **Traveller N**, with new interiors enhances every aspect of the ride – offering greater seating comfort, improved ergonomics and intuitive features that make operation easier and more efficient.

New interiors trims with spacious seating

All-new dashboard and digital instrument cluster – Ergonomically designed driver oriented layout with seamless access and controls

All-new powerful HVAC system & New superior LED powered cabin illumination

New modular side trims and new seats with enhanced contours

Quieter cabin with improved insulation – least NVH

Smart charging with USB and C-type port with provision for speakers

Adjustable and comfortable superior seating for driver

New car like designed door pads with smart storage

New ergonomically designed parking brake lever

Engineered for long-lasting reliability and durability

The New **Traveller N** is engineered for unwavering reliability and long-lasting durability, making it a dependable partner for every journey. High-quality components, rigorous testing, and precision engineering ensure consistent performance, reduced downtime, & maximum uptime – helping operators run their business smoothly, day after day.

Mercedes derived 4-cyl. FM2.6 CR engine with FG-32 synchromesh gear box

Monocoque design for outstanding structural strength

Robotic Welding – made entirely of pressed steel panels

7th Generation CED Painting for unmatched corrosion resistance

Robotic Painting for car-like gloss and even paint finish

Automated assembly line with roller bed test

Technical Specifications

Seating Layout

ENGINE		STEERING		BRAKE	
Model	: FM 2.6 CR ED	Type	: Power steering	Type	: Dual circuit, hydraulic, vacuum assisted, TI-ABS with EBD T2-ESP
Type	: 4 Cylinder, Common Rail, DI TCIC	BODY		Auto Slack Adjuster	: Yes
Bore x Stroke	: 90.9x100 mm	Type	: Monocoque construction	Front	: Disc
Displacement	: 2596 cc	SUSPENSION		Rear	: Drum (Disc for T1 3700 & T1,T2 4020WB only)
Max. Output	: 85kW @ 2950 rpm	Front & Rear	: Leaf spring semi elliptical	Parking Brake	: Mechanical acting on rear wheel
Max. Torque	: 350Nm @ 1400-2200 rpm	Anti roll bar	: Front - Yes shock absorbers	T1 - 4020 & 3700 WB	: Mechanical acting on propeller shaft
GEAR BOX				T2 - 4020 WB	
Make & Model	: FG32/5			FUEL TANK (L)	
Type	: Manual, gear lock synchromesh on forward gears			Capacity	: 70
No. of gears	: 5 Forward, 1 Reverse
